

Porcelain Palettes

Painting detail by Tom Lynch

"Once you have experienced dissolving paint on porcelain, you will never go back to plastic. This palette will improve the way you paint."

For more information on Tom Lynch and his workshops, visit www.tomlynch.com.

The Ultimate Palettes for the Water Media Studio

With over 30 years of painting experience, Tom Lynch and Stephen Quiller realized they needed something more than the ubiquitous lightweight plastic palette. They wanted something sturdier, a palette with a bit more "heft" to prevent slipping and sliding. They sought a surface that would keep the colors moist longer and, unlike plastic, would not cause the watercolors to bead and separate. All of this was accomplished with their signature palette design.

Stephen Quiller Porcelain Palette

Quiller's theories and this 13" x 13" non-staining porcelain palette can change the way artists think about color.

"This porcelain palette is truly the ultimate watercolor painter's tool. Its beautiful white surface allows me to see accurately the transparent mixed pools of color. The surface does not scratch and colors will not stain the surface. This sturdy palette will not shift on the table while actively painting. I use this palette in my studio and it should last a lifetime!"

- Heavyweight for the studio; will not slide around during use; weighs 7lbs.
- 32 wells for color, one large mixing area, and a large plastic dust cover for additional mixing and better storage. (Cover serves to keep dust off paint; does not seal.)
- Great for acrylic and casein paint – a wet sponge and the cover will keep paint from drying during short breaks
- Includes instructions on how to organize your palette for mixing primary, secondary, and intermediate colors

NUMBER 420751

See page 152 for the plastic Quiller and Quiller Traveler Palettes.

Tom Lynch Porcelain Palette

Brushes will glide across the slick surface of this 12" x 16" permanent porcelain palette!

- Heavyweight for the studio; will not slide around during use
- 20 outer wells for color and one large mixing area
- Large front well for extra colors or glazing puddle
- Large plastic dust cover for extra mixing area and better storage
- Corner holes to hold 8 brushes
- Weighs 7lbs.

Measures 16-3/8" x 11-3/4".

NUMBER 420753

Porcelain Palettes

Miniature Porcelain Trays

These trays are excellent for artists on the go! With all the benefits of larger porcelain products, they also have the added benefit of being small enough to carry anywhere.

A. 12 Well Small Porcelain Tray with Lid

Dimensions: 4" x 3-1/4" with 5/8" wells

NUMBER 420716

B. 12 Well Medium Porcelain Tray

Dimensions: 4-3/4" x 3-1/2" with 3/4" wells

NUMBER 420717

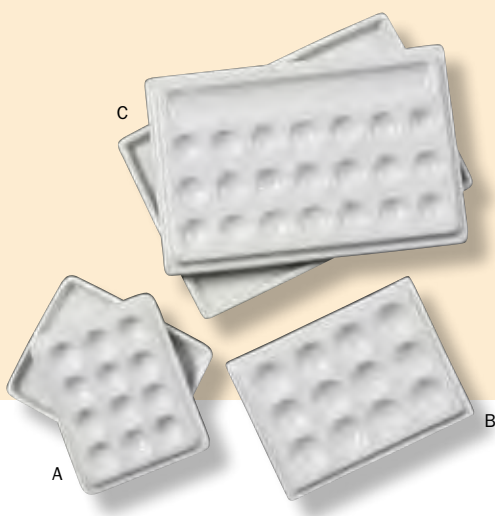

C. 22 Well Large Porcelain Tray with Lid

Dimensions: 7" x 4-3/4" with 5/8" wells and a large rectangular well

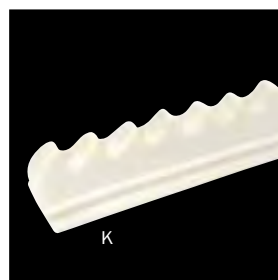

NUMBER 420718

Hand glazed in China, these pure white porcelain items are great for mixing inks and dyes and will not stain. For artists painting on porcelain dolls or dish-ware, these palettes offer the advantage of knowing what the color will look like on a similar surface. Not only are they functional, they also look great wherever you need that "artistic" touch.

NUMBER	DESCRIPTION	DIMENSIONS
A. 420701	Large Vase (Brush Holder)	5-1/8"(w) x 5-1/8"(h) x 3-7/8"(o)

O. 420715	12 Well Round w/Plastic Cover	7-1/2"(w) x 1"(h)

Plastic Palettes

Plastic palettes and trays – they're a playground for color, an open field where the imagination can bloom. A splash of color against the white plastic tells the artist much about hue, mood and texture. Jack Richeson offers a broad selection of trays and palettes to appeal to professionals, students, and even children. Plastics provide excellent margins for dealers. Of course, we always consider the environment at Jack Richeson, so we use recycled plastic where feasible and grind and recycle all plastic waste.

A. Quiller Covered Travel Palette

The color theory of Stephen Quiller has unlocked unlimited possibilities. By designing a smaller version of the Quiller Palette, artists can take these possibilities anywhere. This travel version will fit in many French Easels on the market. Instructions on how to arrange the palette are included.

NUMBER 400250 11-3/8" x 14-3/8" x 7/8"

B. Quiller Covered Palette

The Quiller Palette, designed around the color theories of noted artist Stephen Quiller, provides wells for primary, secondary and intermediate colors, as well as twelve extra wells for additional colors. It has a large central mixing area and outside wells for gouache or earth colors. The Quiller Palette comes with valuable information on how to organize your palette for optimal color relationships and is an essential tool for the watercolorist looking for convenience.

NUMBER 400237 14-3/4" x 14-3/4" x 7/8"

c. Richeson Covered Palette

A large tray with 22 wells for color and a large central mixing area, the Richeson Palette is perfect for organizing your own color system. Use in the studio, or with its secure lid, take your colors into the field. The rounded edges will not harm your brushes.

NUMBER 400207 16" x 12-1/4" x 7/8"

Plastic Palettes

Zoltan Szabo Covered Palette

This palette is everything a good watercolor palette should be. With both big and small wells for mixing color and using larger brushes, the wells have a sloping configuration and a deeper "pool" to keep paint from evaporating. There are no sharp edges which protect your brushes and is easy to use with a palette knife. To top it off, it is sized to fit into a backpack or briefcase.

NUMBER 101002 12-1/2" x 8-3/4" x 3/4"

Colored Sorting Bowls

Six colorful bowls are great for sorting and color recognition. They can be used to hold liquids for art use or beads for crafting.

NUMBER 400266 (Set of 6)

A. "Creative Mark" Palette

This watercolor palette features 40 small square wells and 4 large mixing areas. It includes a cover to keep paints moist as well as provides an extra mixing surface. Measures 12" x 16".

NUMBER 400254

B. 20 Well Tray

A tray that offers both large and small mixing wells with rounded edges that will not harm brushes. Easy to clean. Measures 10" x 13".

NUMBER 400205

C. 21 Well Tray

NUMBER 400299

Palettes & Trays

Keeps oils & acrylics moist for up to 30 days!

The Lock Box

The Lock Box is a fantastic palette that allows artists on the move to store and transport their paint. Teachers find it great for distributing paints to students in the classroom. The top of this 11-1/2" by 1" thick unit locks in position with a secure slide fastener. Inside, paints can be stored in a circular plastic palette or on mixing paper. Also available is a plastic insert that will hold 6 round tempera cakes. It's a perfect container for acrylics, watercolors, oils, and gouache. With included wet sponge strips in place, paint won't dry out and can stay useable for weeks, helping to eliminate wasted paint.

NUMBER	DESCRIPTION
400208	Lock Box w/storage tray (#400213) & 10 mixing sheets
400197	Lock Box w/slant palette insert (#400213)
